Looking For Patterns

1. Think of a recent episode of strong, negative emotions, such as a panic or anxiety attack or depressive episode. Describe your episode of strong negative emotions:

____________________________________________________________________________________

____________________________________________________________________________________

2. Write down the symptoms (feelings and physical sensations) you experienced during this episode:

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

3. What were you thinking about in the moment?

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

4. How did you react?

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

5. Looking at your entries in the table, what were the most common thoughts that you noticed?

6. What were the most common behaviors that you noticed?

7. Do you tend to avoid activities in which you are alone or those that put you in a crowd?

8. Is your avoidance more associated with negative emotions (fear, depression, anxiety) or lack of positive emotions (lack of energy, motivation, or enjoyment)?
